

August 2026

MTU 4000 Cylinder Head Cover & Hand Hole Cover Gaskets

August 2026 featured products are MTU 4000 cylinder head cover gasket (valve cover gasket) and hand hole cover gasket. Covering two different sealing points, both help prevent leakage and support proper engine maintenance under demanding operating conditions.

MTU 4000 SERIES COVER GASKETS

Cylinder Head Cover Gasket & Hand Hole Cover Gasket

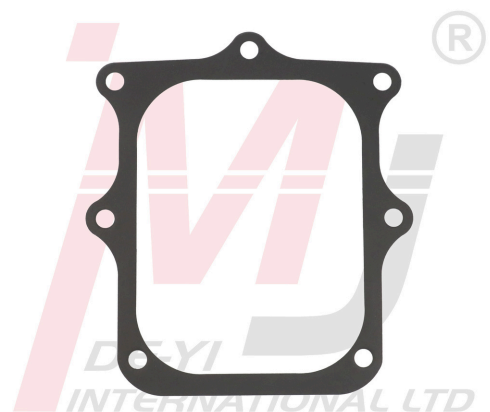

5240160321 Cylinder Head Cover Gasket for MTU 4000 Series

The MTU 4000 cylinder head cover gasket 5240160321 is essential for maintaining a reliable seal between the cover and cylinder head. When correctly seated on clean mating surfaces, it helps prevent engine oil leakage and protects the valve train from dust and contaminants. A damaged, reused, or incorrectly installed gasket can compromise sealing, leading to leaks and additional maintenance. Replacing the gasket when required helps ensure secure installation and protects surrounding engine components.

5240111380 Hand Hole Cover Gasket for MTU 4000 Series

The MTU 4000 hand hole cover gasket seals the crankcase inspection port used for internal checks, cleaning, and maintenance. Made of Foamet rubber-coated metal, it helps compensate for minor irregularities between metal mating surfaces while preventing crankcase gases and oil mist from escaping. Proper gasket fitment supports secure cover installation and reduces the risk of leakage.

MJ has a complete product line for various industrial. Please get in touch with us for more. If you have any concerns or questions about making an international purchase, check out our [FAQ](#) page for more details or contact the MJ sales team.
